

Growth Core Strategy

Whilst the strategy constantly evolves in line with market dynamics, the parameters are featured below:

Investment objective

To increase the capital value of the portfolio in real terms, over the long term by investing through a diversified portfolio of 'collective' investments which may invest in UK and international equities, corporate and sovereign bonds and cash.

Risk profile

The capital value will fluctuate in the medium term and capital values may be negative over the short term.
Risk profile – Medium to high.

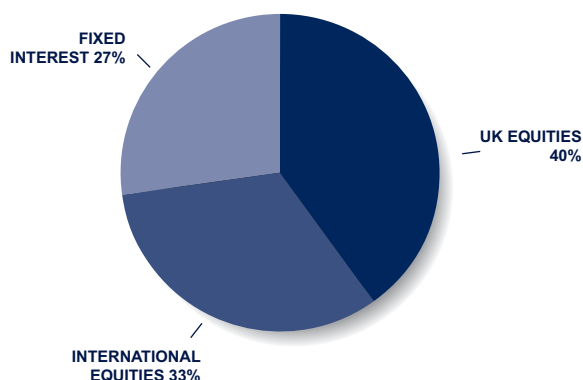

Minimum investment period

The strategy is not appropriate for investors with a time horizon of less than 5 years.

Liquidity

Typically, liquidity will not exceed 25%.

Typical strategy asset allocation

Top 3 Holdings

JPMF £ Liquidity

Black Rock UK Absolute Alpha

Thames River Global Bond
